

INVITATION

CEURES - Central European Urban RESiliency

3rd International CEURES Workshop on Urban Resiliency

(online event)

The recent years have brought dire challenges to Central Europe. The effects of climate change on urban environments, the raging war in Ukraine, security concerns (potential disasters due to misfire, sabotages, etc...), and the refugee situation on the Eastern borders of the EU are all current issues for our settlements in the V4 countries. Therefore, our project aims to identify best practices as regards these challenges in the V4 region and to share knowledge among urban professionals in order to help with preparing our villages and towns to cope.

This workshop is just for you if you feel like to know real best practices of urban resiliency from Central Europe from renowned experts of V4 countries and be part of the discussion!

Participation is free of charge but requires registration. The language of the workshop is English.

1

Programme

About CEURES

CEURES project mission is contributing to urban resiliency in Central Europe through finding best practices and sharing the knowledge among urban planners, local governments and young professionals within a powerful cooperation of Urban Development Association - UAD (HU) as lead partner, [University of Hradec Kralove](#) (CZ), [Leszczycki Institute of Geography and Spatial Organization, Polish Academy of Sciences](#) (PL), [Forum Regional Development Centre](#) (SK) and [PONTIBUS EGTC](#) (SK-HU).

3

CEURES intends to collect the scattered best practices and knowledge born in recent years in the field of urban resilience in V4 countries and reach the most relevant target groups for maximum impact through the following:

- Conducting best practice research in all V4 countries
- Workshops for professionals
- Creating and publishing best practice compilations
- Development of hands-on multilingual training materials in modular e-learning
- Conducting pilot training
- Creating a Central European Urban Resilience Handbook

The project is co-financed by the Governments of Czechia, Hungary, Poland and Slovakia through Visegrad Grants from International Visegrad Fund. The mission of the fund is to advance ideas for sustainable regional cooperation in Central Europe.

supported by

• Visegrad Fund

Urban Development Association is the community of professionals dedicated to regional and urban development.
